Company names in blue denote Exclusive Suppliers.

An asterisk\* after a company name denotes a VWR bioMarke Member.

PCR\* is a patented process of Hoffmann-La Roche. Use of the PCR process requires a license.

### Looking for premier Life Science products? You'll find them in the VWR bioMarke magazine!

This innovative, full-color magazine is your guide to trends and technologies in the Life Science industry. Look for products from these leading suppliers: Abgent, Axygen, BD Biosciences, Bender Med Systems, Binder, BrandTech, Boekel Industries, BTX®, Cambrex, C.B.S. Scientific, EMD Chemicals, Eppendorf®, Eurogentec, Genra Systems, Hyclone, Lucigen, Mallinckrodt Baker, Mediatech, Pall Life Sciences, Promega, Rockland, Techné®, Thermo Electron, UVP, VivaScience, VWR International, Whatman and MWG Biotech.

For a free copy of the VWR bioMarke magazine, contact your VWR representative or call 1-800-932-5000.

## Life Science Manufacturers Source Guide

VWR International offers top-quality products from leading suppliers for a variety of Life Science applications. As we grow our portfolio, we are focused on Life Science technologies, including drug discovery, and genomic and proteomic research. VWR provides an extensive selection of equipment and supplies to meet your needs in a fast-paced, continually changing environment.

Use this guide to identify products for the Life Sciences available through VWR International.
